DR. MILLSPAUGH BACK [

National Educational Association's Meeting at Milwaukee.

SALT LAKE'S CHANCES FOR THE NEXT CONVENTION.

Washington Appears to Be the Only Rival-Points That Will Be Taken Into Consideration In Making a Choice-This City Likely to Be the Winner.

Superintendent Millspaugh returned yesterday morning from a visit to Milwanker, where he has been attending the meeting of the National Educationassociation. In speaking of al association. In speaking of the meeting Dr. Milispaugh said that the choice for the next convention was, in his opinion, between Salt Lake and Washington. He went on to say that though Omaha received the greatest number of votes, yet that did not decide the matter. Those votes were only by the board of directors of the association, and was not final but merely a surgestion as to the wishes of the members.

IN THE COMMITTEE'S HANDS. The result of the voting was turned over to the executive committee of the association, which is composed of the president, first vice-president, secretary and treasurer and the chairman of the board of trustees. They will investigate the matter and make the selection

POINTS TO BE CONSIDERED. There are several things to be taken into consideration in making the selection. The first is as to the ability of the city to be selected to entertain the members. In Omaha there will be very little to attract the members next year as far as entertainment is concerned. The National Educational association of the second of corned. The National Educational as-sociation always expect concessions to be made in hotel rates etc. In Omaha next year the Trans-Mississippi expo-sition will take place and the hotels and boarding nouses will be filled and rates high so that will go against Omaha.

Omaha.

Another condition considered is that of securing rates on the railroads. The association have heretorore obtained half rates plus \$2. This \$2 on each ticket is turned over to the association, and as there will be special rates. to Omaha for the exposition a great many people who would avail them-seives of the National Educational as-sociation rates will go on the exposition tickers. This would deprive the asso-ciation of a great deal as every cut rate ticket on the National Educational association exemptor would give to association excursion would give to them the sum of \$2 which they would not otherwise receive. This also is

OBJECTIONS TO WASHINGTON. But with Washington the only objections are the abominable weather and that the people would rather come west. One great argument used in the convention this year in favor of Salt Lake was that the best and largest meetings ever held by the association was held in the west and that is where people prefer to go,

SALT LAKE FAVORED.

Or. Millspaugh said that he talked with two members of the executive committee after the convention and they were both fayorable to Sait Lake. Treasurer 1, C. McNeil of the asso-ciation will visit Sait Lake within the cannon will visit sait Lake within the next two or three weeks to investigate the advantages offered here. It is ex-pected that the decision as to the place where the next convention will be held will be given not later than the list of

If you trace a narrow path along the latting of the southermost the of South will be regularly curved into the point of beginning.

If you trace a narrow path along the latting of the southermost the construction department in the latting of the region in which the eclipse will be a region in which the eclipse will be the region in which the eclipse will be the region in which the eclipse will be the region of the more will be a region in which the eclipse will be the region i

WHAT "ANNULAR" MEANS.

The sun will not be entirely blotted out, however, as there will be a rim, or "ring" of light, left around the black circumference of the moon. This ring of light gives the name to this kind of an eclipse, the word "annular" being derived from the Latin word "annular" meaning a ring. This is well to remember, for there are not a few persons who have confounded "annular" with "annual," and who are under the impression that an anular eclipse is one that takes place every fear.

The path of the annular eclipse of July 29 will average about 25 miles in width, and will run from a point about 1,099 miles southwest of the town of

width, and will run from a point about 1,000 miles southwest of the town of Tepic, on the west coast of Mexico, northeast through Tepic; thence southeast, taking in Havana, and just skiriling the right shoulder of the South American continent at Cape St. Roque, Brazil. The path will terminate in a point in the south Atlantic ocean off the coast of south Africa The length of this path is about 3,000 miles, but owing to its extreme narrowness, it will cover only a small part of the globe. The region in which the eclipse can be viewed as a partial eclipse, on the other

Members Held Another Long Session Last Evening.

JUBILEE

FIREWORKS BILL CUT DOWN FIVE HUNDRED DOLLARS.

Accepted By the Company-Commission Cannot Come Out Even Unless Every Subscription Is Paid-Interesting Notes of the Jubilee.

The Jubilee commission held a long session last night, the business under consideration being chiefly the bill of the California Fireworks company for LYNCH WAS IN THE CITY \$2,500 for the pyrotechnical display on Saturday night. In this bill, however, was included over \$400 worth of fireworks used at Saltair, so that Saturday night's display really represented about 32,000. The commission checked the pieces as they were exploded on Capitol hill and found a shortage in the amount contracted for. Of course there was nothing singular about that for some fireworks in such an immense display are always defective. There was no difficulty in arriving at a conclusion, the company's representative. clusion, the company's representative being perfectly fuir, while the incident furnished another evidence of the vigilance of the commission. The bill was cut down \$590, which gives the commission encouragement in the hope of coming out aven coming out even.

The inference that Miss Lizzie Walsh, the United States, and local astronomers are much interested in the phenomenon. At Sait Lake a considerable portion of the sun will be obscured, so that the diminishment of sunlight will be quite percentile.

An exchange gives these facts concerning the eclipse:

The inference that Miss Lizzie Walsh, who represented Victor, Colo, at the Jubilee, and sent in a bill to the commission for her expenses while on route and during the Jubilee is entirely erroneous and places that accomplished and popular young lady in a failse and embarrassing position. The memorandum published in the Tribune was made out by Mr. Mannix, of Victor, and Miss Walsh knew nothing will be visible extends from a point.

No definite plan has been decided upon with regard to the ultimate disposition of the floats, although negotiations are pending with parties in Bolse, who talk of buying a number of them for their estebration in the autumn.

The Hall of Relies will be kept open for a few weeks yet, in order to enable everyone to have an opportunity to view the interesting collection. After it is finally closed, the relies that have been domated to the state will be turned

been donated to the state will be turned over to the State Historical society for safekeeping, and the remainder returned to their owners.

A resident of Provo has presented the commission with a place of one from

commission with a piece of ore from the Uncle Sam mine at Tintic, which weighs 700 pounds. It is expected it will bring \$100 when sold.

Piopeer George Woodward of St. George, yestering contributed \$50 to the monument fund. So far, \$14,000 of the \$55,000 required has been raised.

A Handsome Complexion

THE OPINION.

This opinion was asked for some days ago and was delivered to the board at its last meeting and by it taken under advisement. It is:

"In respect to your recent inquiry as to whether it is the duty of the board of county commissioners to appoint registration agents under the existing election law, providing for the municipal election to be field in Sait Lake City in November next, we are of the opinion that by the election law passed by the late legislature, chapter 15, page 37, laws of 18%, under which registration agents were appointed last year, it is absolutely repealed and therefore the authority of the registration agents appointed thereunder. pointed last year, it is absolutely repealed and therefore the authority of the registration agents appointed thereunder has ceased, and they are no longer entitled to act.

The ejection law of 1837, on pages 187, and 177, provides for the appointment by the board of councy commissioners at the meeting held nearest to the first day of June, preceding the next general election, of registration agents, who shall hold office for the term of two years, and as this law provides for registering of voters previous to municipal elections and specifies the duties to be performed by registration agents in this behalf, we are of the opinion that this section should be given such construction as to provide for the appointment of registration agents for this year, prior to the municipal election, and we are therefore of the opinion that it is the duty of the board of county commissioners to make such appointments for the election districts within Sait Lake Cfty.

All of which will make Heath, Fred Price et al. sorry and heartsick. The gang which has floated around the city registering folks has become so used to the work that to have them outsted means grief in more than one family. There are those who have done this work who have depended upon at for their winter's coal and their winter's flour and all such little matters, and if the present board goes to work and appoints others it will necessitate other arrangements being made for chasing the gaunt wolf from the door during the bleak menths which are to come.

It is expected at the next meeting of the board action will be taken and the offi-

M'CORNICK & CO. come.
